# Zen Landscape & Garden Design

[Landscape, garden, water and stone designer](#) with over 20 years of experience in developing traditional to contemporary designs with eco - friendly concepts to meet the modern world.

From design to construction builds supervision. Kohei Owatari keeps a keen eye to develop one of the most endearing landscape and garden design.

Early training and education in agriculture with strict discipline under one of the most prestigious Japanese landscape firm to work on Japan's Royal residence, Kohei Owatari design brings it's own philosophy of Zen design to fruition. Kohei's styled landscape designs most distinguishing feature is achieving an holistic perspective of showing its primordial mode of being with people and nature. Inseparable relationship through exercise of nondiscriminatory wisdom, without prioritizing the visible over the invisible, the explicit over implicit, and vice versa to achieve the harmony in natural design.

## Traditional Design in Modern Design

Concept of traditional Japanese landscape and garden design is engraved into modern design by recognizing the simplicity and straightforwardness in grasping reality of the needs of today. A design to reflect our living condition, a timeless design of one with nature and to preserve with less use of resources to maintain the beauty of its design.

Kohei Owatari Design is a reflective endeavor of the old and the new or new and the old which mirrors a spontaneous creative act of living nature.
